

MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT: E&E Concept

REFERENCE: C/PP Memo of 8 March, same subject  
(SECRET)

1. The subject paper, brought to your attention by reference, was developed in close coordination with appropriate officers in AFSPD, HQ USAF. These officers have informally expressed approval of the potential increase in CIA capability represented in this concept and the degree to which it complements USAF planning which is embodied in their WPM-57.

2. Since WPM-57 is not scheduled to be transmitted to this Agency, and because of the pertinence of the subject paper, the USAF element referred to above has indicated strong interest in having an opportunity to formalize their comments for the record in both the USAF and CIA. These officers believe that the concept paper would provide an excellent vehicle for furthering mutual understanding of common goals if it were transmitted to the USAF for such comment.

3. In view of the above, recommend that you sign the attached memo of transmittal.
